

# Horizon Europe Navigators MeetUp: Building bridges

20 March 2025, 09:00 – 10:30

*Warsaw, Institute of Physics PAS, al. Lotników 32*

## Meeting of the HORIZON EUROPE NAVIGATORS network

An upcoming meeting of the network of research managers and administrators across institutes of the Polish Academy of Sciences, known as the Horizon Europe Navigators, will be dedicated to strengthening cooperation between network members through personal participation in the event. In addition, we will connect with Brussels to familiarise participants with **the priorities of the Polish Presidency of the EU Council related to science and research and innovation policy.**

Participants in the meeting will have the opportunity to listen to the Research Attaché of the Polish Representation to the EU, who will present the aforementioned priorities, plans and events promoting Polish science. She will also point out key legislative initiatives at the EU Council level, which - under the Polish Presidency - will set the course of Europe in the field of research and innovation.

During the tele-bridge we will also invite the Hungarian Research Attaché to present recently published **European Competence Framework for Research Managers (RMA).**

The meeting will be conducted in both English and Polish with personal attendance only.

## AGENDA
