

# Horizon Europe Navigators MeetUp: MSCA Postdoctoral Fellowships 2025

16 May 2025, 10:00 – 11:45 (*online*)

## Meeting of the HORIZON EUROPE NAVIGATORS network

An upcoming meeting will gather the network of research managers and administrators across institutes of the Polish Academy of Sciences, known as the Horizon Europe Navigators, researchers working at the PAS institutes as well as the participants of the recent study visit organized by PolSCA Office. It will be dedicated to the subject of [MSCA Postdoctoral Fellowships 2025 call in Horizon Europe \(MSCA PF\)](#).

Participants in the meeting will have the opportunity to listen to a presentation by **the European Research Executive Agency (REA)**, shedding light on the innovations within the **MSCA PF call to be open on 8 May and closing on 10 September 2025**. This presentation will enable the audience to gain a deeper understanding of what lies ahead for potential applicants and how to support research institutions in aligning their internal procedures with EC recommendations.

Next, a representative from a Belgian university will present how the institution promotes the MSCA PF grants and supports the incoming fellows as well as future supervisors at the university.

Also, we will let the successful research institutions from Poland share their experiences with preparing the proposals and management of the projects.

The meeting will be conducted in both English and Polish (the latter for sharing the experiences).

## AGENDA

10:00 – 10:05 | **Welcome**

10:05 – 10:35 | **MSCA Postdoctoral Fellowships 2025 call – information session with the REA**
