
PolSCA webinar series on Horizon Europe

Open Science in practice. Implications for project proposals and research management.

10th November 2022

09:30 - 12:30

(Working language: English)

WEBINAR OVERVIEW

The primary focus of this webinar is on **Open Science** (OS) policy and **Open Access** (OA) and their role in project proposals, research management and in valorisation of research results.

In alignment with [8 ambitions of the EU's open science policy](#), the webinar aims to broaden the knowledge on the logic of maximising the impact of the EU research & innovation funding derived from [the Implementation Strategy for Horizon Europe](#) and principles of the [European Research Area](#) (ERA) that aims to create a single, borderless market for research, innovation and technology across the EU.

The webinar covers every stage of a research project life cycle, from project proposals, through delivery and management, up to communication, dissemination, and exploitation of research results.

AGENDA

Open Science in practice.

Implications for project proposals and research management.

10th November 2022

09.30 – 09.40 | Opening remarks, Tomasz POPRAWKA, The Polish Science Contact Agency in Brussels

09.40 – 10.10 | European Commission's policies and initiatives on Open Science, Silvia BOTTARO, EC, DG RTD

This session will tackle Open Science that is the modus operandi in Horizon Europe in such aspects of project management as research publication, data management and citizen engagement. It will also present EU policies and initiatives on research assessment which underpin the Open Science practices.

10.10 – 10.20 | Q&A

10.20 – 10.45 | FAIR data and the European Open Science Cloud, Barbara Sanchez Solis, TU Wien

The session will present the idea of FAIR data (Findable, Accessible, Interoperable and Re-usable data) and open data sharing in European research. Participants will discover more about the European Open Science Cloud initiative and learn how to use it in valorisation of research results.

10.45 – 10.55 | Q&A

10.55 – 11.10 | Coffee break

11.10 – 11.35 | Open Science in practice of data management, Jonathan ENGLAND, OpenAIRE

In this session will provide insight to Horizon Europe Open Science requirements, with focus on research data management. Participants will be given an insight in practical implications of Open Science for research projects, including recommended practices at the stage of developing project proposals.

11.35 – 11.45 | Q&A

11.45 – 12.10 | Dissemination & Exploitation Strategy – using Horizon Results Booster and the Horizon Results Platform, Georgios LYSSANDRIDES, EC, DG RTD

The session will provide a clear understanding on dissemination and exploitation of Horizon Europe projects. It will give an insight into the Horizon Project Platform and Horizon Results Booster, services provided free of charge to all EU FP beneficiary projects and supporting the impact of publicly funded research visible.

12.10 – 12:20 | Q&A

12:20 – 12:30 | Closing remarks

GENERAL REMARKS

The main objective of the activities undertaken as part of the **PoISCA Webinar series** is to strengthen the knowledge of the EU framework programme for research and innovation – [Horizon Europe \(HE\)](#) among representatives of the scientific community of the [Polish Academy of Sciences \(PAS\)](#). The participation in Horizon Europe (2021-2027) will undoubtedly be a great challenge for scientists and research units in Poland, including employees of the PAS Institutes. Yet, Horizon Europe programme, with a budget of EUR 95.5 billion, clearly provides a great opportunity to implement ambitious R&D projects, largely based on multilateral scientific cooperation.

The synergy of various activities initiated within the [PASIFIC](#) programme under the PAS headquarters, combined with dissemination and training activities undertaken by the [PoISCA Office](#) in accordance with its mission shall contribute to increasing the effective participation of the research institutes of the PAS in projects funded under Horizon Europe. To further enable that, PoISCA is involved in **building and strengthening an informal support network** dedicated to scientists and research managers of the PAS institutes in the context of the EU framework program for research and innovation, with an emphasis on Horizon Europe
